## Serving those who serve us

The Fire Watch Virtual Intensive Outpatient Program was created specifically for Veterans and first responders—those who have faced the unimaginable in service to others.

Developed by Veterans and supported by a team who understands their unique experiences, Fire Watch offers compassionate, effective mental health care through a safe, virtual space.

Whether it's survivor's guilt, trauma, moral injury, or ongoing depression and anxiety, Fire Watch provides the tools and support needed to heal, reconnect with core values, and build a meaningful life. This program is our way of giving back to those who have given so much.

Through your support of today's outing, you are standing with the heroes who stood for us.
